## Customs Form for Expedited Processing

To help expedite your international package through United States customs please complete this form, fold at the dotted lines and attach it to the **outside** of your package so that the outlined box is visible.

This form is also available on our website under our Samples tab.

In order to facilitate correct identification of the shipment and to ensure timely delivery, USDA, AHPIS, VS recommends that the following documentation accompany each shipment.

### **THIS PACKAGE CONTAINS NON-RESTRICTED, TIME-SENSITIVE CANINE MATERIAL**

In accordance with USDA Guidelines for Importation: #1102 Canine Material a USDA import permit is not required because I can verify the following statements to be true.

1. The materials in this shipment are canine samples (tissue or blood) that are non-restricted, non-infectious specimens for diagnostic purposes with corresponding paperwork inside the package (Laboratory requisition form).
2. These materials do not contain any other animal-derived material (i.e., does not contain any livestock or poultry origin material).
3. This material was not derived from canine species which were inoculated with or exposed to any infectious agents of USDA agricultural concerns.

I declare that the above information is true and correct to the best of my knowledge.

***All shipping charges, import fees, duties and taxes are the full responsibility of the owner/shipper.***

We highly recommend that you use an international courier that will provide you with a tracking number and estimated delivery date. Please email this tracking number to us at [AskUs@pawprintgenetics.com](mailto:AskUs@pawprintgenetics.com) so that we can also track your package. Note that Paw Print Genetics is not able to accept Saturday deliveries.

The value that you declare on your shipment's US Customs form should **not total more than US\$15**. This is the value of the swabs themselves, not the price of your order. This will make it easier to get your shipment through customs, and there should not be any duties or taxes applied. If there are any Collect on Delivery (COD) fees associated with your package, Paw Print Genetics will attempt to automatically charge them to the payment method used to place your order. If we are unable to process this charge, we will contact you to find a suitable form of payment. Any duties, fees or taxes are the responsibility of the customer. Sample processing will be delayed until all outstanding balances are paid.
